**Product ID: AH2108**  
**Manufacturer: Hanwei**  
**Price: 115,00 EUR**  
**Availability: In stock**

**See it in our store.**

Our two Combat Helms are both crafted in 14 gauge steel, to comply with the combat regulations of many re-enactment societies, with solidly welded bar attachments. The finish is satin black and the interior is unlined for customization to individual preferences. The AH2108 has a hinged faceplate (hinges up when not in use), while the AH2109 model is of one-piece construction. Bar spacing on both complies with most societal regulations.

Product parameters:

- Weight: 3,7 kg
- Height: 28 cm
- Thickness: 2 mm
