Galadriel, the Queen of the Elves, wears a beautiful ring known as Nenyà in The Lord of the Rings. Also referred to as the Ring of Water, Nenyà is reproduced in stunning detail out of solid sterling silver and set with a fine European crystal beneath the laced silver on the top of the ring. Reproduced with extraordinary workmanship, it comes complete with a rich wooden collector's box and a certificate of authenticity. Available in sizes 5-12, this ring makes a stunning gift for any occasion. Please note that the fine European crystal in Galadriel's ring is held loosely within the Sterling Silver setting. This graceful design is intentional, and you will hear the crystal move within the setting from time to time, but it is secure.
